-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

Figure 4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The abstract should be one paragraph not separated paragraph.
The word "means" should be omitted throughout the abstract.

Allowable Subject Matter

Claims 1-6 are allowed.

The prior art fails to disclose An anti-theft apparatus, comprising: memory media to be carried by a person demanding permission to utilize a vehicle; and an immobilizer provided in said vehicle, wherein immobilizer includes: communication means for receiving user identification data from said memory media; user identification data storing means for storing user identification data being indicative of a registered user having permission to utilize said vehicle; identifying means for judging whether or not said person is identical to said registered user on the basis of the comparison between said user identification data received from said memory media and said user identification data stored in said user identification data storing means; driving state detecting means for detecting whether said vehicle is in a traveling state, or in a stopped state; and locking and unlocking means for controlling a gear shifter provided in said vehicle on the basis of the judgment of said identifying means, said locking and unlocking means being adapted to assume two different operation states including a locking state to lock said gear shifter to prevent said gear shifter from being shifted from a neutral state or a parking state when the judgment is made that said person is identified as said unregistered user under the condition that said vehicle is in said stopped state, and an unlocking state to unlock said gear shifter to allow said gear shifter to be shifted from a neutral state or a parking state when the judgment is made that said person is identified as said registered user under the condition that said vehicle is in said stopped state.

Conclusion

This application is in condition for allowance except for the following formal matters:

As stated above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
